

BOXER SPIRIT

WHERE PAST MEETS FUTURE

Our urban G/S

In order to equip the Urban G/S – the most off road-suitable R nineT version – we are able to offer an extensive range of products. However, this is by no means limited to the machine's visual appearance. We also offer an adjustable paralever bar and a Wunderlich suspension chassis – infinitely variable – raising the height up to 70mm. Crash bars and engine protectors for the Boxer unit, downpipe and cooler protection as well as various crash pads and skid items keep the urban G/S safe from bad damages, should the worst happen.

With an intense focus on seating comfort we developed the »AKTIVKOMFORT« seat. It is built up using an utterly new shell as well as a new base, finished in black or in its original shade of orange. In conjunction with a raised handlebar and various ergonomic supplements it guarantees an extremely relaxed riding position which tremendously increases comfort for long-distance rides on the G/S.

The design of our rear »ENDURO« mudguard is very appealing: The white protection perfectly suits the style of the latest R nineT version, securely keeping whirled-up dust from the back wheel away from rider and pillion.

Competition number plate, attractive luggage solutions, white hand protectors and other sensible accessories to fit the Urban G/S round out our range. These items turn the Urban G/S into an ideal touring machine, a worthy successor of the old R 80 G/S.

List of recommended components:

Item-No.	Product	Item-No.	Product
20350-002	»DOUBLESOCK« drive protection pad, rear, black	31742-302	Pillion luggage rack »Rallye«, with passenger frame, black
